

## Her Health Restored

THE misery of sleeplessness can only be realized by those who have experienced it. Nervousness, sleeplessness, headaches, neuralgia and that miserable feeling of unrest, can surely be cured by Dr. Miles' Restorative Nervine. So certain is Dr. Miles of this fact that all druggists are authorized to refund price paid for the first bottle tried, providing it does not benefit.

Mrs. Henry Bruns, wife of the well known blacksmith at Grand Junction, Iowa, says: "I was troubled with sleeplessness, nervousness, headache and irregular menstruation; suffering untold misery for years. I used various advertised remedies for female complaints besides being under the care of local physicians, without help. I noticed in Dr. Miles' advertisement the testimonial of a lady cured of ailments similar to mine, and I shall never cease to thank that lady. Her testimonial induced me to use Dr. Miles' Nervine and Nerve and Liver Pills, which restored me to health. I cannot say enough for Dr. Miles' Remedies."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

## ARE WITHOUT POWER

Filipino Commissioners Say They Cannot Bind Their So-Called Government.

## RESULTS OF CONFERENCE

With Schurman, Worcester and Denbo Must Be Referred to Aguinaldo. German Naval Attache Talks of the United States Navy—Currency Reform Plans.

Manila, May 22.—The Filipino commissioners, who arrived here on Saturday to negotiate with the United States commissioners, held a conference this morning with Messrs. Schurman, Worcester and Denby. They say that they are without power to bind the so-called Philippine government in any particular and can only refer any results of the present negotiations to Aguinaldo.

Waiting For Peace News. Washington, May 22.—There was a lack of news in official quarters yesterday from both General Otis at Manila or General Brooke at Havana. The president and war department officials are awaiting with much interest evidence predicted by General Otis regarding the meeting between the commissions representing the United States and Aguinaldo, though the belief expressed by the American commander at Manila that the insurgents want an armistice as a condition precedent to treating for peace leads to the belief that no immediate results may come of the meeting.

UNITED STATES NAVY. German Attache Talks Entertainingly Of Our Warships.

Washington, May 22.—Captain Lieutenant von Reuber Paschwitz, naval attache of the German embassy, talked interestingly yesterday with a reporter at his observations of the American navy, covering not only the war period, but an inspection of our ships, navyyards and naval methods in the period since the war. This officer made such a favorable report to the German admiralty concerning the consideration shown him by American naval circles that it brought a strong letter of thanks from the minister of marine of Germany to Secretary Long and, to some extent, offset the tension arising over alleged differences between the American and German naval officers in the Philippines.

Speaking of the technical construction of American ships, Captain von Reuber Paschwitz said: "It is quite noticeable that your American naval constructors and shipbuilders show the characteristic energy of Americans in wishing to find something new. While the American ships are built on the same general lines as the German and English ships, yet they show a tendency to try new ideas, to experiment on details.

For instance, the disposition of ammunition and the ammunition hoists are admirable contrivances. The ammunition is served through one central chamber, and is delivered immediately back of the gun ready to be placed in the breach and fired. This is so obviously the right thing and so practical in the rush and confusion of action that all navies followed the lead of your American constructors when they first adopted this method of getting the ammunition to the gun. There are many of these small points which appeal to the naval observer. In the placing of guns and armor, the American and German ships are much alike, except that we have never resorted to your device of the double-decked turret, which is probably not beyond the experiment stage. The large coal capacity of American ships is a capital feature which

ANGEL CHILDREN. Is there any happier woman in this world than that mother whose each successive little one seems to her but one more darling angel to continually lift her thoughts toward the sunshine of perfect happiness? But sorry is the lot of that poor mother to whom motherhood has ceased to be a cause of rejoicing, but has become instead a burden to be dreaded and looked forward to with melancholy and apprehension.

"About three months before our last baby was born (which is our fourth)," writes Mrs. Nellie Carl, of Myrtleport, Coos, Oregon, "my health was very poor. I had been troubled for about eight years with female disease. I doctored with good physicians but obtained no relief, so I wrote to the World's Dispensary Medical Association, and was advised to take Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery.' I did so, and am happy to say my health began to improve and I did my work up to the last, and felt splendid.

"I got along finely during confinement, and have the healthiest baby I ever saw. When he was three months old he weighed eighteen pounds; he is now seven months old and weighs twenty-four pounds. I can say I have had no return of my old troubles. I thank you very much for the good you have done."

Any woman may write to Dr. R. V. Pierce, of Buffalo, N. Y., a statement of her case, which will be considered in absolute confidence by this physician who stands among the foremost specialists of the century in the treatment of women's diseases. He will send her (in a plain, sealed envelope) sound, sensible, valuable advice free of all charge.

Dr. Pierce's great thousand-page, illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, to pay the cost of mailing only, or cloth-bound for 31 stamps.

will prove especially serviceable if you are to have outlying territory such as Hawaii and the Philippines."

"How does the personnel of our navy—the officers and men—compare with that of other navies?" was asked.

"The American naval officers have much technical knowledge, perhaps more than German officers, but it is a question whether the technical cannot be carried too far to the exclusion of those larger subjects of torpedo maneuvering, etc. You have just united the engineer branch with the regular line of the navy, so that hereafter all your naval officers will also have to be steam engineers. That is carrying the technical knowledge very far, and will put such great requirements on your officers that the result will be awaited with much interest by students of naval affairs. When officers are compelled to master such a mass of detail they have scant time for considering the larger questions of attack and defense and the real science of warfare. They become too mechanical. The great naval commanders are not merely engineers, but men of intellectual attainments, thought and statesmanship, as well as technical knowledge of ropes and irons."

"As to the American sailor, it is hard to judge him by any foreign standard as your ideas and ours are so totally different. Physically the American sailor is a splendid specimen. The American method of recruiting is calculated to get a good class of men, drawn from a wide stretch of country and with frequent infusions of new blood, while with us sailing is almost a life business. Probably as a whole the American system gets a better class of men than that in vogue abroad. It certainly tends to give the men greater self-reliance and that in turn may be the reason they are such good fighters.

"They certainly know how to keep your ships in shape and the discipline and general conditions observed on board an American man-of-war are probably equal to those of any naval service in the world."

EX-CONGRESSMAN EDWARDS DEAD.

Dunkirk, N. Y., May 22.—Francis Smith Edwards is dead at his home in this city of paralysis, aged 83 years. He represented this district in congress for a number of years, beginning in 1854. While in congress he took Lieutenant William B. Cushing, of Albemarle fame, to Washington, and made him a page, and later on secured his appointment to the Naval Academy at Annapolis.

MR. AND MRS. BELMONT.

Lexington, Ky., May 22.—Mr. and Mrs. Perry Belmont left for New York today after a delightful stay of two weeks at Hal P. Headley's famous Beaumont stock farm. Mr. and Mrs. Belmont expect to sail in a few days for an extended trip to Europe.

CURRENCY REFORM.

Points Said to Have Been Agreed Upon by Republican Committee.

Washington, May 22.—It is understood that the house Republican caucus committee, appointed to frame a scheme of currency reform, has agreed upon a measure along the following lines:

The redemption of all obligations of the government in gold on demand.

Greenbacks, when once redeemed for gold, to be reissued only for gold.

Permitting national banks to issue notes to the par value of their government bonds deposited in the treasury, instead of 90 per cent as at present.

Permitting the minimum capital of national banks to be \$25,000, instead of \$50,000 as at present.

This plan is much less comprehensive than ardent advocates of general currency revision have urged, but was adopted because harmonious agreement on it was possible, which was not the case when more radical measures were suggested.

KILLED HER HUSBAND

Now Mexico Demands Her Extradition Under the New Treaty.

Washington, May 22.—The Mexican ambassador, Senor Aspiroz, has presented to the secretary of state an important case which calls for an interpretation of a clause in the new extradition treaty. His government asks for the surrender of the widow of Martin Rich. According to the statement which accompanies the application, Martin Rich was an American of means, living in Juarez, on the Mexican side of the Rio Grande, opposite El Paso, Tex. His wife stabbed him in the back, inflicting a fatal wound, but before death came she got him across the river, so that Mr. Rich died on American soil. The Mexican government accuses Mrs. Rich of murder and asks that she be surrendered to Mexico for trial. The fact that the woman is an American makes the case extraordinary.

The Mexican ambassador was seen at the embassy. He said: "This is the first time the United States has been called upon to extradite one of its own subjects, and this makes the case of unusual interest. Besides it is the first to occur between our countries since the ratification of the new treaty, which was arranged a few weeks ago."

"The crime is peculiar in that it was committed by a woman and the criminal was an American. There is no question that such a criminal deserves punishment. At the same time there is a clause in the new treaty which places the extradition of a person, who is a native of the country from which it is desired to take that person, within the discretion of the president. Should the president, on whose excellent judgment I implicitly rely, decide adversely to the claim of Mexico for the extradition of this criminal, there would be no punishment for her in this country, as your courts would not take cognizance of a crime committed in another country. Mexico, of course, wishes to place all bars possible to the advantage which evildoers might take of this clause and commit crimes from which they can easily escape their deserved punishment by fleeing to their native land."

## PHILIPPINE ISLANDS

Do Not Produce Enough For the Consumption of the Natives.

## AGRICULTURAL OFFICERS

At Washington Issue at Report Bearing on the Island's Productiveness. Rice One of the Most Important Food Products—Fruits Grow in Abundance—Tobacco Raised.

Washington, May 22.—A report on the plant products of the Philippine islands, just issued by the agricultural department, is authority for the statement that the Philippines, although an agricultural country, do not produce enough food for the consumption of its inhabitants. In order to supply the deficiency it is the custom to draw upon other rice producing countries, notably the French colony of Cochinchina. No explanation of this condition is offered, the report dealing exclusively with the agricultural resources of the islands as they now exist.

The report shows that of the area of the Philippine islands, one-ninth, or about 8,000,000 acres, is devoted to agriculture. Taking into account the natural fertility of the soil, and the vast portion of these rich lands not yet under cultivation it can safely be assumed, it adds, that with better methods of exploitation, the total agricultural production of the islands could be increased to 10 or 15 times its present amount.

One of the most important food products of the islands is rice, which forms the staple food of not only the native population, but also of the numerous Chinese inhabitants. More than 100 varieties are grown and by planting alternately an early and a late variety, two crops a year can be secured. The ordinary price of rice in the husk is from 60 to 65 cents per bushel, while shelled rice brings from 90 to 95 cents per bushel. The annual production of this commodity is about 36,000,000 bushels, an amount far below the actual requirements of the population, even when supplemented by maize, sweet potatoes, bananas and other native fruits and tubers. In some years the quantity of rice imported into Manila from Saigon has exceeded 3,200,000 bushels with a value of nearly \$2,000,000.

Maize, next to rice, is the most important of the grain products of the Philippines, the report stating that in several provinces it is the chief subsistence of the natives.

Tuberous roots also constitute a valuable source of food. Among these, the sweet potato occupies first rank, with an annual production of about 98,000,000 pounds. The common, or white potato, although of a rather inferior quality, comes next in importance.

Fruits grow in great abundance, bananas heading the list, while other varieties are the mango, pineapple, tamarind, orange, lemon, plums, bread fruit and pawpaw.

Large quantities of sugar cane are grown, but, owing to crude methods of manufacture, the sugar made in the Philippines is inferior in quality and consequently brings a low price. About 500,000,000 pounds a year are exported, exceeding all other exports, except those of Manila hemp, of which nearly the entire crop is marketed abroad. The average yearly shipments amount to nearly 100,000 long tons. Cotton has recently lost much of its former importance partly because of the excessive taxation, but principally because of the successful competition of British fabrics.

Years ago indigo was one of the important products of the islands and there are many kinds of dye plants grown. Coffee is grown successfully on the Philippine archipelago, but the plantations are not nearly so well managed as those in Java. As a general rule Philippine coffee is not of the best quality. Tobacco grows to some extent in most of the islands of the archipelago. Over 100,000,000 of cigars are exported annually from Manila and the shipments of leaf tobacco average about 20,400,000 pounds.

Of spices, the Philippines furnish nutmegs, cinnamon, pepper, ginger and marjoram. Medicinal plants are abundant, but most of them are little known.

## THE PARIS AGROUND

All on Board Safely Landed—There Was No Excitement.

Falmouth, May 22.—The American line steamer Paris, Captain Watkins, from Southampton, May 20, via Cherbourg for New York, is hard and fast aground just off Lowland's point, two miles east of Coverack. The vessel went aground yesterday in a dense fog. The passengers were landed safely at Falmouth. It is not known to what extent the vessel is damaged. Captain Watkins reports that she lies in a comfortable position in a smooth sea.

When the vessel struck, assistance was summoned by means of rockets. As soon as the signals of distress were seen at Coverack, the rocket apparatus was made ready and a crew of four men put out in a lifeboat and proceeded to the stranded ship. The men report that when they reached the Paris they found not the slightest sign of excitement aboard the ship. All the passengers were below at the time. As there was evidently no immediate danger, the lifeboat crew left the Paris and came to Falmouth to summon assistance.

The first intimation of the vessel's striking the rocks was a slight grating sound, which was followed by a second and more pronounced shock. The lookout gave a warning shout, but before the engines could be reversed the ship was on the rocks.

A majority of the passengers were not aware that an accident had happened until they were summoned on deck, when they found the boats all ready to receive them. The sea was calm at the time, and the passengers were safely got aboard the lifeboats without difficulty. From the boats they were transferred to tugs, which had gone to the assistance of the distressed vessel, and brought to Falmouth.

An effort was made last evening to tow the Paris off the rock. Three tugs were engaged at full pressure with the steamer's steel hawsers, her own engines assisting for half an hour. The attempt was entirely unsuccessful, the steamer not budging an inch.

Caused Excitement in London.

London, May 22.—The news of the disaster to the Paris spread rapidly in London, and great excitement and alarm was felt until the arrival of the information that all on board were safe. The company's offices were besieged with inquirers, anxiously asking for news regarding friends or relatives on board the steamer.

DAWSON CITY

Main Portion of the town Destroyed by Fire—Loss \$4,000,000.

Victoria, B. C., May 22.—The main portion of the city of Dawson was destroyed by fire on April 26, causing a loss of \$4,000,000. In all 111 buildings, including the bank of British North America were burned. The news was brought down by L. S. Hume, a son of Mayor Hume of Seattle. J. Toklas and a third party who left Dawson on April 27 and made their way out by canoe to Lake Le Barge and then over the ice, having a most perilous trip, report the fire occurred on April 26 in the heart of the business center of the city, commencing near the opera house on the water front, and spreading with unusual rapidity. It was driven by a strong north wind, destroying everything in its way on that street down to and including Donahue & Smith's establishment.

The fire then took in all of the water front buildings abreast of the same blocks. It crossed the street, burned through and spread over to Second street, covering the principal business portion of Dawson, leaving it all in ashes, with the firemen helpless and powerless to do anything.

The fire came at a time when the mills and dealers in building materials had depleted their winter supplies and were waiting the opening of navigation to replenish their stocks. The result is a famine in all kinds of building material and furniture, such as sashes, doors, locks, hinges, etc. The few articles still remaining outside of the burnt district have quadrupled in price. Doors are selling for \$35 each, door locks \$8 and everything else in proportion.

William T. Stead

Writes of the Chances of Arbitration at the Hague Conference.

London, May 22.—The Daily News publishes a dispatch from The Hague supposed to be inspired by William T. Stead, editor of the Review of Reviews, which is in part as follows:

"Regarding arbitration, the present position of the delegates seems to be this: Germany and the other powers of triple alliance are entirely against it, and Turkey follows in their wake. Great Britain and the United States are entirely in favor of it. Professor Von Stongel of the German delegation said today: 'Arbitration is impracticable when two nations are divided by a vital issue, while in less important questions it exists already.'

"France is hesitating and will probably agree with Russia. Several delegates confess that they came to the conference unprepared and have already learned much."

\$95 FINE

Penalty Meted Out to Three Young Men Charged With Assault.

Morristown, Ind., May 22.—The charge of attempted criminal assault on little Maud Fleetwood filed by George Fleetwood against Clyde Lingenfelter, Earl Boring and Alonzo Nigle was changed to assault Saturday and the boys were fined \$35 each. Immediately after the trial Fleetwood assaulted a neighbor, Thomas H. Buck, with a club, beating him severely over the head, and Fleetwood was then arrested on the charge of assault with intent to kill. Fleetwood killed an officer in Kentucky many years ago. He came here under an assumed name and was not captured for a long while. Afterward he was paroled.

Fell From Grace.

Jeffersonville, Ind., May 22.—Pearl Parish, a stylish young man sent from Covington to the reformatory a year ago, has been reduced from the first class to the foundry, the worst place in the prison. He and six others planned an escape and were found out. When Parish arrived here he made a favorable impression and was soon in the first class. He had easy diningroom work at first and was then given a place in the prison band. His fall from grace will result in an extension of his term of imprisonment.

DR. AIKEN ON TRIAL

Charged With the Murder of Mrs. Reese, a Schoolteacher.

Macomb, Ill., May 22.—The trial of Dr. John W. Aiken of Tennessee, Ill., charged with the murder of Mrs. Frank W. Reese by malpractice, began Saturday. Ex-Speaker L. Y. Sherman, G. D. Tuennidoff and ex-congressman W. H. Neece and son are defending, while the state's interests are in the hands of State's Attorney Camp and W. H. Holly.

Mr. and Mrs. Reese were both employed as teachers in the public school at Brownsville, Cass county. About March 15, the latter went to Tennessee to place herself in the care of Dr. Aiken. At the corner's inquest the husband testified that his wife went to the doctor against his will and advice. Dr. Aiken was held to the grand jury without bail, and an indictment was returned by that body, charging him with murder.

### LANDIS AND THE TRUSTS.

In a recent interview Representative Landis announced that he would not be a candidate for Governor but would stand for renomination in the ninth congressional district. In the interview he took occasion to speak in reference to the trust question. His position is that the trust evil must be solved; that it must be solved by the Republican party, the party that does things; that it cannot be submitted to the Democratic party whose history is but a record of broken promises. He thinks that the Republican party should at once take up the question, discuss it and evolve a plan by which the evil may be remedied. He suggests the taxation upon a graduated scale of the output of trust made goods. Mr. Landis, however, is not wedded to any particular plan, but has faith that the plan ultimately adopted by the party will be the best. We believe with the Ninth district congressman that the duty of the hour is for the Republican party to take up the trust question and discuss it, to the end that the best remedy may be adopted. Mr. Landis by his courageous utterance on the trust question has made himself strong with his party throughout the state, and were he a candidate for governor he would have enthusiastic support in every district. No man who is not opposed to trusts organized to control prices and destroy competition and who has not the courage to speak out against the evil can be nominated for governor by the next Republican state convention.

ADMIRAL DEWEY has sailed for home. The reception that will be given him on his return will demonstrate the appreciation of the American people for a real hero.

The report that ex-Senator Pfeiffer would shave off his whiskers and return to the republican party is discredited. That he is tired of populism, however, no one calls in question.

The Grand Army encampment at Terre Haute this week will bring together a multitude of Indiana's soldiers who served in the civil war, and who since that time served the state as loyal and patriotic citizens.

ONE of the laws made by the recent legislature requires the County Auditor to provide a bulletin board and post from day to day the amount of unloaned school funds on hands. The law is a good one and will be the means of keeping this money out and drawing interest.

### Coroner's Verdict.

Dr. A. M. Veazey, coroner, renders the following verdict relative to the death of the unknown man found by the railroad track at Ewing May 3:

"Having viewed the body and heard the evidence I render the following verdict viz: That deceased came to his death by a shot fired from a 38 caliber revolver in the hands of an unknown man, who was about five feet, 7 inches high, smooth face and had on a dark blue suit of clothes, a brown hat with two holes in side, tan shoes and striped hilt and was about 25 years of age.

He had an accomplice who was about 5 feet 3 inches high who wore light pants, tan shoes, white hat, brown coat, light shirt and had a scar on lip and was about 18 or 19 years of age. The shooting occurred in a box car one-half mile east of Brownstown.

Given under my hand and seal this 18th day of May, 1899.

A. M. VEAZEY, Coroner.

Halls Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists. Hall's Family Pills are the best.

A series of articles which ought to be of great value announced for early publication in Harper's Bazar. They will give a comprehensive discussion of "Home Dressmaking." It is needless to mention that the contributor of the series, Julia K. McDougall, teacher of dressmaking at Pratt Institute, is fully competent to present the subject so that it will be easily understood by all women who wish to make their own gowns.

### A Geographical Blunder.

Leroy Armstrong in his romance of Brown county now running as a serial in the Chicago Times-Herald has made a blunder that may result in an injunction suit. He says Brownstown is the county seat of Brown county. A mistake like that will not be readily forgiven. What will the people of Nashville think? Their noted little town has been entirely ignored by the romance. We fear they will be slow to forgive the error. But a more serious question is: How will Brownstown treat this geographical blunder? We just know they won't like it. To be dislodged from their old and proud position and be acrimoniously transferred to the classic hills of Brown county we fear will not be satisfactory and it is too bad to have a people displeased with their place in literature.

### Bankruptcy Court.

Judge Thomas S. Batchelor, of Vernon, is here today holding United States Court in the cases of voluntary bankruptcy filed by Frank Woodmansee, Garret F. Harlow and John F. Harlow. The court is being held in the law office of Attorney John H. Kamman.

### Methodist Institute.

Rev. J. M. Baxter will leave this evening to attend the Seymour District Methodist Institute. He is on the program to lead in the discussion of "Sermon Preparation." Rev. J. L. Shroyer is also on program.

### Want a Bank.

Crothersville wants a bank and some of the enterprising citizens there are talking up the enterprise. A bank would help out the business interests there, but the question that confronts those who would take stock is, would it pay?

### Birthday Party.

Gertrude Siebenburgen celebrated her eleventh birthday this afternoon with a number of her little friends. The room was tastily decorated with pink and white and dainty refreshments were served.

### A Lengthy Trial.

The argument in the Lutes-Cross case will doubtless be concluded today, this being the fourth day since the trial began in the circuit court. At first it was thought it would not take over two days to try it.

### To The Encampment.

The excursion train over the Southern Indiana Railway leaves Seymour 8:25 a. m. arrives at Terre Haute 2:45 p. m. \$2.45 for the round trip. Tickets good for return until May 27. J. M. CLARK, Agent.

"Green Withes," by Jeannette H. Walworth, the powerful complete novel in the June issue of Lippincott's Magazine, is a tale of strong human interest, touching as it does, on one of the vital questions of the present time. Mrs. Walworth gives to environments its full value in leading the reader from the old world to the new. Her pathetic is the situation of the ill-fated millionaire's daughter whom we meet in Rome. Then the vigorous, independent heroine of the later pages. Both are harmoniously and artistically set forth. The snapping of the green withes of convention, and the inevitable awakening are told in a forceful and interesting way calculated to arouse the deepest sympathy.

No Gripping or Pains. Arrowsmith, Ill., Jan. 21, 1897.

Dear Sirs:—I have been bothered for 15 years with constipation and I have tried many preparations during that time. I commenced using Dr. Caldwell's Syrup Pepsin in the fall of 1895 and unhesitatingly say it is the best remedy I have ever found for my trouble. No gripping or pains after taking.

Yours, etc.,

WM. HUNT.

## Mrs. Col. Richardson SAVED BY MRS. PINKHAM.

[LETTER TO MRS. PINKHAM NO. 72,856]

"You have saved my life, snatched me from the brink of the grave almost, and I wish to thank you. About eighteen months ago I was a total wreck, physically. I had been troubled with leucorrhoea for some time, but had given hardly any attention to the trouble. "At last inflammation of the womb and ovaries resulted and then I suffered agonies, had to give up my profession (musician and piano player), was confined to my bed and life became a terrible cross. My husband summoned the best physicians, but their benefit was but temporary at best. I believe I should have contracted the morphia habit under their care, if my common sense had not intervened. "One day my husband noticed the advertisement of your remedies and immediately bought me a full trial. Soon the pain in my ovaries was gone. I am now well, strong and robust, walk, ride a wheel, and feel like a girl in her teens. I would not be without Lydia E. Pinkham's Vegetable Compound; it is like water of life to me. I am very grateful and sincerely your well-wisher, and I heartily recommend your remedies. I hope some poor creature may be helped to health by reading my story."—MRS. COL. E. P. RICHARDSON, RHINELANDER, Wis.

## A TRAMP HURT

In a Freight Wreck at Ft. Ritner.

Sunday evening the wrecking crew here was called to Ft. Ritner to clear away a wreck of through freight No. 50. The train had broken in two for some cause and the ends crashed together, badly demolishing three cars.

In one of these cars were some tramps stealing a ride and one of them, Mike Garvin, was right badly hurt. His chin was cut, face bruised and probably hurt internally. His wounds were dressed by Dr. Casey who was called down to Ft. Ritner with the wrecking crew.

## When Nature.

Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedies only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Co.

## Here, Also.

A well known citizen who makes his living by day labor, said to the Review this morning: "If there is a man in Greensburg today who is not at work it is his own fault. I have many more calls than I can attend to, and work every day." This is the talk of a man who is in a position to know whereof he speaks, and proves that there is work in Greensburg for all who desire it.—Greensburg Review.

G. F. Beckman and employes are home from Paris Crossing, where they papered several houses.

## A SUPERIOR SERVICE IN DRUGS and MEDICINE

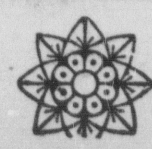

In  
Medicine  
Quality  
Is  
Of  
First  
Importance.

It has long been our custom and will continue our custom as long as we remain in business to handle only drugs and chemicals which we absolutely know to be of superior strength and purity.

No Doctor can obtain the desired results in the sick room unless his prescriptions are filled as he intended them to be, i. e., with drugs of the highest quality. The sick room is the one place above all others where quality counts above everything else. If you want the patient to improve; to respond to the physician's labors, you must be particular with the medicine. You must have his prescription filled with nothing but pure and fresh drugs and chemicals. We cordially invite your patronage and assure prompt attention and courteous treatment.

**GETS LIFE SENTENCE**

**Jury Finds Dr. Gray Guilty of Murdering Mrs. Skinner at Bloomfield.**

**VERDICT UNSATISFACTORY**

The Absence of a Leader Is All That Prevents a Lynching - Powdermill Explosion at the Aetna Powder Company's Works - Serious Charges Against a Lawyer.

Bloomfield, Ind., May 22.—The jury in the Gray murder case yesterday afternoon returned a verdict, sentencing Dr. E. E. Gray to life imprisonment for the killing of Mrs. Skinner in coldblood. Bloomfield people are indignant over the verdict and all that is wanted for a mob and a lynching is a leader.

**SERIOUS CHARGES**

Against a Member of the Kosciusko County Bar.

Warsaw, Ind., May 22.—A case involving the professional honor of an attorney of this county was sent to Warsaw Saturday on change of venue. The defendant is Omar F. Neff of Milford, and serious charges are preferred against him by a committee of the Kosciusko county bar. The committee was appointed by Judge Biggs, and in the complaint alleges that Neff, while an attorney in Warsaw, in 1897, while acting as counsel for Benjamin Hoopgardner, assignee of Halsey & Co., took a note for \$75 from John Keating, and wrote in the note "six," making it call for \$675, instead of the original amount. He is also charged with corrupting mortgages and doing numerous other acts.

**DAMAGING ORCHARDS.**

A New Pest Which Is Destroying All Kinds of Fruit Trees.

Hagerstown, Ind., May 22.—A pest has made its appearance here, which is damaging many orchards, attacking all kinds of fruit trees and, in some cases, trees in the woods. It is a dark green worm about half an inch long. It first appears in a web in surprising numbers. Bursting from the web the worms spread to all parts of the tree, and in a very short time the leaves are shriveled and blackened. After a tree has been worked on by the worms it has a blasted appearance, as if it had been burned, and has no sign of life about it. The worms have never been seen here before, and no local naturalist has been able to classify them.

**EXPLOSION**

Report From Hammond That an Aetna Powdermill Exploded.

Hammond, Ind., May 22.—The powdermill of the Aetna (Ind.) Powdermill company blew up late last night. It was reported from Lake Station, three miles from the powdermills, that a shock had been felt there. The shock was felt also at Calumet park, a mile from Hammond. At Lake Station it was said nothing was known of a fire following the explosion nor was there any report of casualties.

**Husband and Money Disappears.**

Decatur, Ind., May 22.—John Blainey, an old resident of this city, has mysteriously disappeared. Mrs. Blainey has been visiting relatives in the country, and on her return she found her home in disorder, as though visited by thieves, and she could learn nothing as to the whereabouts of her husband. A large sum of money belonging to Mrs. Blainey, which was concealed in the house, is also missing. Whether Mr. Blainey took the money and fled or whether the house was entered by thieves is not known. Officers have no clew.

**Blackmailers Convicted.**

Bedford, Ind., May 22.—The jury in the Sheeks-Utterbach-Cooper blackmail case returned a verdict of guilty Saturday, giving Miss Cooper two years at the Woman's reformatory and Utterbach from two to 14 years at Jeffersonville. Miss Cooper had accused Sheeks of criminal assault and then acknowledged that she and her lover, Utterbach, had conspired to bleed Sheeks out of a sum of money.

**Died at 103 and Never Married.**

Huntington, Ind., May 22.—Margaret Bailey of this county is dead at the age of 103 years. She lived in the south part of the county since 1865, coming there from Kentucky. She was never married. Her life was one of utter fearlessness, and in her younger days she was an expert pistol shot, as ready to use the weapon as any Kentuckian. She had full use of her mental and physical powers until a year ago.

**Church Worker Violently Insane.**

Hagerstown, Ind., May 22.—Mrs. Susan Throovits, the wife of a wealthy farmer, has become violently insane. She was in good health and apparently in sound mental condition up to the very hour of her derangement. The cause of her mental collapse is not known. She has been placed in East Haven hospital. She is 60 years old, and is well known over the county as a church worker.

**Killing the Fish.**

Greenfield, Ind., May 22.—Fishes by the ton are floating dead along Brandywine creek from the refuse of the strawboard works being turned in. The water has a black color and is unfit for any use for miles below.

**\$5,000 Worth of Lumber Burned.**

Decatur, Ind., May 22.—The large dry kilns of the Decatur Egg Case company were destroyed by fire late Saturday, reducing to ashes \$5,000 worth of seasoned lumber.

**Eagle, The King of All Birds.**

**CURE SICK HEADACHE.**

Mrs. Little Loses.

The suit of Mrs. Mary F. Little, of this city, against the B & O S-W. road for \$10,000 damages on account of the death of her husband, who was an engineer on the fast east bound mail, which ran into an extra freight train at Cochran July 30, 1894, on account of a switch being left open, was tried in the Martin circuit court, and the jury returned a verdict Friday afternoon at 3 o'clock in favor of the railroad company—Washington Democrat.

The case was first tried in the Pike circuit court and Mrs. Little was given judgement for \$4,000 but this was reversed by the supreme court. The progress of this suit has been watched with interest by many of Mrs. Little's friends in this city.

**His Life Was Saved.**

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and soon felt strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung troubles. Regular sizes 50 cents and \$1. Trial bottles free at W. F. Peter's drug store; every bottle guaranteed.

The composition proves the musical ability of Mr. Burkoll, who is receiving the hearty congratulations of his friends on the success of his first published piece of music.

**CELERY KING**

NATURE'S CURE

No More Rheumatism.

For years my wife suffered from rheumatism. She tried many remedies, but got little benefit, and we had about given up all hope of relief when we heard of Celery King, and my wife began using it. This great medicine has, apparently, driven all the poison out of her system, and has certainly relieved her from a life of pain.—G. F. Cushing, North Abington, Mass.

Celery King cures diseases of the Nerves, Stomach, Liver and Kidneys. Sold by druggists, 25 and 50c.

**HEARTY EXPRESSION.**

**HUNDREDS TELL OF THE CHANGE THEY HAVE FELT.**

The Time Comes for Indiana People to Tell What Has Been Done for Them.

The time has come when people in Indiana feel the change. Many people in this city have given voluntary endorsement of the great change they have felt after using Morrow's Kid ne oids.

Kid ne oids will cure a lame back, kidney backache, urinary and kidney disorders, sleeplessness and nervousness. We always like to give references as to the merits of Morrow's Kid ne oids, and this time refer you to E. H. Waldo, chief clerk in the freight Dept. of the Big Four, Anderson, Ind., who says: "I have been troubled with backache in the region of the kidneys and have had primary disturbances for several years. Every indication was kidney trouble. Learning of the many cures effected by Kid ne oids, I resolved to try them and secured some from which I received relief in three days. There is no gainsaying your claims for I am convinced that Kid ne oids are A No. 1 and I recommend their use."

Morrow's Kid ne oids are not pills but Yellow Tablets which is the scientific form of preparing medicine, they are put up in wooden boxes which contain enough for about two weeks' treatment and sell at fifty cents a box at all druggists and Alpha Cox's drug store.

Mailed on receipt of price. Manufactured by John Morrow & Co., Chemists, Springfield, Ohio.

Many old soldiers now feel the effects of the hard service they endured during the war. Mr. Geo. S. Anderson, of Rossville, York county, Penn., who saw the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack lately," he says, "and procured a bottle of Chamberlain's Pain Balm. It did so much good that I would like to know what you would charge me for one dozen bottles." Mr. Anderson wanted it both for his own use and to apply it to his friends and neighbors, as every family should have a bottle of it in their home, not only for rheumatism, but lame back, sprains, swellings, cuts, bruises, and burns, for which, for which it is unequalled. For sale by C. W. Milhous.

**Another Case of Rheumatism Cured by Chamberlain's Pain Balm.**

My son was afflicted with rheumatism which contracted his right limb until he was unable to walk. After using one and a half bottles of Chamberlain's Pain Balm he was able to be about again. I can heartily recommend it to persons suffering from rheumatism—John Snider, Freed, Calhoun Co., W. Va. For sale by C. W. Milhous.

**Spanish-American War Panorama.**

Is one of the war books which is likely to be in continuous demand. It is a panoramic record of the triumph of Yankee Doodle. The eagle flaps his wings on every page, and "Old Glory" waves around and above every scene. Prominent officers connected with the war are here portrayed, as well as many of the "men behind the guns." Military life is pictured to the eye from recruiting to guard mount and skirmish line. Nor is the ludicrous omitted. The company cook receives the attention due to his importance; the mess is shown; cavalry scenes are given; the hospital arrangements are depicted; the heroines of the Red Cross service are displayed; street scenes in Havana, Santiago and elsewhere are unrolled; the new citizens or subjects (which are they?) of Uncle Sam, appear and disappear as the scenes are turned.

In a word, the gazette visits the new localities and sees the tumultuous new life, without the risk or expense of a sea voyage.

The Album is 5 1/2 x 8 inches, weighs 12 ounces, printed on finest coated paper.

Sent FREE to any address in the United States, Canada or Mexico, for 10 cents in stamps or coin, to cover postage and packing. Copy may be seen at any ticket office of the Big Four route.
